

Supporting Education Systems to Implement Large-scale FLN Programs

Students	2025	2030
Improved Learning	1.3M	3.5M
Outreach with improved FLN Inputs	21.8M	60M

National level Advocacy

System-focused Efforts For Improvements at Scale

Strengthening mid-tier leadership

- Differentiated capacity building
- Adjusting roles for accommodating instructional leadership

Improving large-scale teacher training

- Simple improvements in the cascade, like preparation of master trainers
- 60% of training time dedicated to skill-based demonstrations and practice
- Integrating Continuous Professional Development components

Focus on Practices that significantly impact learning

- Identifying learning gaps; arriving at priority teaching practices through consultation
- Consistent system-wide messaging
- Focus through observation tools

Strengthening Governance focus on learning

- Simplifying dashboards
- Review meetings that include discussion on classroom observation and student learning data
